

CONSENSUS COFERENCE

Dunboyne Castle and Hotel, Dublin, Ireland.

January 12th and 13th, 2012

Perspectives on Sufficient Supply of Plasma Proteins/Products

Structure for a new PLUS Statement 2012

Plasma Product Sufficiency: Objective for the New PLUS statement

It is accepted that the need for and supply of plasma proteins has increased consistently over the last decades. However, it is also accepted that most people who need plasma proteins still get inadequate treatment or no treatment at all.

This statement is intended to provide a framework for healthcare stakeholders to:

- Increase the availability of plasma proteins to meet the global need for these therapies
- provide policy makers with a basis for prioritising resources to ensure maximum patient benefits
- provide a step-wise approach to improve consistently the treatment of people whose health depends on regular access to plasma proteins

**CONSENSUS CONFERENCE
Dublin, Ireland.
January 12th and 13th, 2012**

**Perspectives on Sufficient Supply of Plasma Proteins/Products
Structure for a new PLUS Statement 2012**

Meeting Agenda

Thursday, January 12th 2012

09:00 Welcome and introduction – B O’Mahony

- Overview of participants
- Purpose of the meeting

Background: plasma product needs and demand drivers 1980 – 2020 – P Robert

- Albumin – Coagulation Factors – IG
- Variations in demand and use
- Future requirements for factor Concentrates D. Page
- Future requirements for IG therapy for PID patients J Prevot

10:30 Break

Please reply to: david@ipopi.org, PLUS, Firside, Main Road, PL11 3LE Donderry, United Kingdom

11:00 **Factors affecting sufficiency of supply – R. Perry/ C. Waller**

- Plasma availability
- Global Manufacturing capacity
- Access to technology
- Regulation
- Clinical guidelines and prioritization of indications
- Costs, resources available and economic assessments
- Interaction between blood and plasma sectors
- Observations by FDA, EMA *M Weinstein, EMA – TBC*
- *Observations by other participants*
- *Open discussion*

13:00 *Lunch*

14:00 **Draft Statement**

Introduction – *B. O’Mahony*
Chair – *Dr. William Murphy*

Please reply to: david@ipopi.org, PLUS, Firside, Main Road, PL11 3LE Donderry, United Kingdom

**Perspectives on Sufficient Supply of Plasma Proteins/Products
Structure for a new PLUS Statement 2012**

Friday, January 13th 2012

- 09:00** **Review Day One and draft statement**
Chair- Dr. William Murphy
- 10.30** *Break*
- 11:00** **Draft 2012 Statement**
- 13 .00** *Lunch*
- 14.00 – 15.00** **Finalisation of Statement and Close of meeting**
